2013-14 Data Results

2013-14 school performance and growth results are available below. Data provided is in the form of spreadsheets and provides summary information. Effective with the 2013-14 school year, North Carolina Accountability reporting (including School Performance Grades) will be available through the NC School Report Card. The NC School Report Cards are available after the February 5, 2015 State Board of Education (SBE) meeting. The NC School Report Card will allow users to do a variety of data analyses. Data files are provided in a spreadsheet format designed for use in applications 2007 and newer. This format may not be compatible with programs designed prior to 2007 due to the size of the files. These files contain a pre-applied filter to help make finding specific information easier.

2013-14 State, District, and School Level End-of-Course and End-of-Grade Assessments Report(xlsx, 2mb)

2013-14 State, District, and School Level Other Indicators Report (xlsx, 191kb)
